Season of 1948

These prices are for good, strong, substantial trees, shrubs, or plants with a good root system and true to name. It is not the light grade, poorly rooted, unreliable stock so much used in mail order and department store trade which is expensive at any price.

Varieties not listed, write for quotations.

In order to be fair to the small purchaser as well as the large we give a single, ten and 100 rate. Five trees or plants of the same variety and size will be furnished at the 10 rate 25 will be furnished at the 100 rate. **Less than 5 plants of one variety and size must be figured at the single rate, 25 of the same variety and size, or 50 of the same class as peach, apple, etc. will be furnished at the 100 rate, 250 at thousand rates if quoted.**

TERMS—Cash or satisfactory reference.

PARCEL POST—Most small parcels can be sent by mail cheaper than by express. **Postage charges must be paid by the purchaser.** Unless postage is included with order it will be sent by Express.

SHIPPING DIRECTIONS—Always give full name and address and state how the shipment is to be sent. All small packages should be sent by express or mail and berry plants should never be sent by freight.

LARGE ORDERS—Special quotations will always be made on large orders. Write us stating the quantity desired and the probable varieties. We will duplicate any offer made by anyone, size and quality considered.

COMPLAINTS—All complaints for shortage or damages to stock must be made to us immediately on receipt of goods and no complaint will be considered unless made within 10 days of receipt of stock.

VISITORS—Are always welcome and are invited to our nurseries.

Please note that the 10 rate does not apply unless the order calls for not less than 5 of the same variety and size. It does not apply to 10 plants made up of one or two of a variety.

Champion	J. H. Hale	Salberta
Early Crawford	Kalhaven	South Haven
Early Elberta	Late Crawford	Sunglow
Elberta	Lemon Free	Wilma
Golden Jubilee	Mayflower	Zarn
	Oriole	

IMPROVED HALE—Similar to J. H. Hale, ripening at the same season, but a much stronger growing tree, more hardy and a far better bearer as it is self pollinizing.

ZARN—One of our own introductions. Many large growers consider this the very best variety they have in their orchard. As large as Elberta, and better colored and far better quality. Bears evenly on the tree and does not overbear. Holds up well after picking. Ripens about a week ahead of Elberta. We have been growing Zarn for 25 years or more and there are many thousands of bearing trees in the Ohio peach section along Lake Erie. Many who operate roadside markets tell us it is the best seller they have and that their patrons call for it by name day after day and year after year.

VARIETIES — Brassington, Early Richmond. Large Montmorency and English Morello.

BRASSINGTON—A sub acid variety, between a sweet and a sour. We consider it the very best variety for home use or roadside stand. People who buy it once always come back for more. Tree very hardy and a splendid stocky grower with foliage almost impervious to fungus diseases. Seldom fails to produce a crop.
